

Bring One for the Chipper

Dec. 26-Jan. 3

The tree of Christmas past can give our community a cleaner future

Your old Christmas tree can be recycled into mulch, fuel or fish habitats, especially since our public landfills will no longer accept trees or yard waste. The mulch is used for public beautification projects, and in many communities is available free to citizens.

Just remove all the decorations and bring the tree to a recycling center near you, and you'll receive, as a thank-you gift, a nursery seedling (only Jan. 3, 9 a.m. - 2 p.m.) while supplies last.

Area recycling sites:

Arcade - City Hall

Commerce—Lanier Tech/Badcock Center

Braselton/Hoschton -

Jackson County Transfer Station on County Farm Road

Jefferson Civic Center

Talmo - Fire Station

Nicholson - City Hall

Since 1991 more than 1,000,000 seedlings have been given to those participating in the Keep Georgia Beautiful Bring One for the Chipper recycling event. Many are now tall, sturdy trees that enhance our environment. Sometimes the best gifts don't even have to be wrapped.

For more information, call (706) 708-7198 or visit us online at www.keepjacksoncountybeautiful.com
